

Patterns... Your Way!™

Pattern Catalog

We make patterns the way you need them!

Table of Contents

How to Use This Catalog and Place Orders

How to Custom Size a Pattern

Patterns (*Patterns shown are not all to same scale. Some are reduced more than others from their standard sizes.*)

Appendix A: Prices, Standard Sizes, Ranges of Acceptable W/H Ratios, N^o. of pieces in pattern.

Appendix B: How To Submit Patterns for future catalog updates.

Back: Order Forms--Samples only since you can't print this PDF.

Patterns in this catalog can be ordered to the EXACT size needed.
Charge for custom sizing is just \$6.

Standard Paper Sizes (Print Area)

	23.5" x 34.5"	59.7 cm x 87.6 cm	
	23.5" x 46.5"	59.7 cm x 118.1 cm	
(1 inch = 2.54 cm)	35.5" x 46.5"	90.2 cm x 118.1 cm	(1 cm = 0.3937 inch)

Custom sized patterns larger than these paper sizes are printed on more than one sheet, requiring you to tape the pages together for the full-size pattern. (An alignment guide is printed on multiple page patterns for precise alignment.) Patterns are printed to a tolerance of ± 0.05 ". Maximum enlargement: size is 100" x 100".

Digital Version of this Catalog

This catalog is also available in color in digital format using Adobe's Acrobat. You need Acrobat Reader (available free from Adobe's web site at www.adobe.com) to view the file*. With the digital format you can search the entire catalog instantly to find pattern subjects if you downloaded Acrobat Reader with the search feature.

*If you have a computer with a CD Rom, Acrobat Reader is also available on a single CD Rom for Windows 3.1, Windows'95, Macintosh, UNIX, HP-UX, IBM-AIX, SunOS, and IRIX platforms. Send us \$7 for the Acrobat Reader CD Rom and the digital version of this catalog on 3.5" diskettes (PC or Mac). If you already have Acrobat Reader with Search, send \$5 for just the digital version of this catalog on 3.5" diskettes (specify PC or Mac.)

Patterns...Your Way!™

We make patterns the way you need them!

1153 Yale Ave Modesto CA 95350-5850 209-409-3850 FAX: 209-529-0632 e-mail: service@patternsnyw.com
Place orders from ONLINE catalog (www.patternsnyw.com) -- we no longer accept fax orders.

How to Use This Pattern Catalog

Placing orders is easy. Visit our web site (www.patternsnyw.com) and place your orders from our online catalog. Your pattern order will be e-mailed to you as a PDF file and attached to the e-mail letter we send you when we've processed your order. You then print, trim & tape for full pattern.

Patterns are printed without the shading shown in the catalog.

You can have each pattern printed to the EXACT size you need. (Remember to allow for the projects perimeter comes when specifying the size you need. Patterns are printed to the size you order!) See the next section for custom-sizing a pattern to your needs.

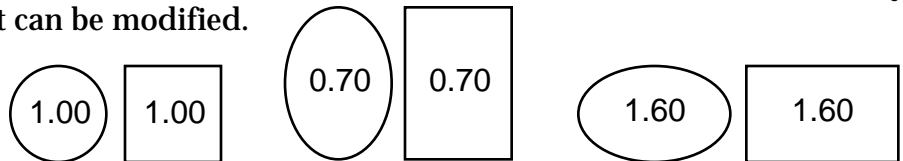

How to Custom Size a Pattern

While we can print any pattern to any dimensions, it might not look correct if you exceed the range of acceptable proportions. Here's how to decide which pattern will work for your need:

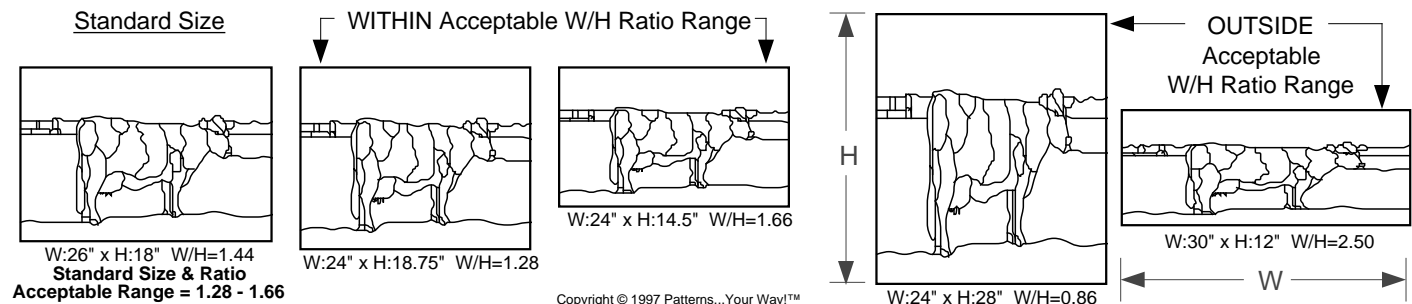

- 1) Calculate the width and height for your project.
- 2) Divide the Width by the Height. This is your W/H Ratio. For example, if you need a pattern for a 12" wide by 60" high window, your W/H Ratio = 12/60, or 0.20.
- 3) Choose a pattern for which your W/H Ratio is within the Acceptable W/H Range as shown for each pattern in the back of the catalog. For example, a pattern with the range of Min=0.15 to Max=0.45 will work fine for your application with a 0.20 W/H Ratio. If you are outside of the recommended range, you can still order the pattern, as long as you give us permission to process the order by checking the appropriate box on the order form.
- 4) Check to be sure your size request is larger than the Minimum recommended pattern width. This will assure that the pieces in the pattern are not too small to cut. The Minimum Recommended Widths are set for experienced glass cutters.

When custom sizing patterns, keep in mind that circles (W/H=1.0) become ovals if you specify unequal width and height. Squares become rectangles with unequal side & top borders. Octagons become elongated octagons, semi-circles become semi-ovals, and so forth. We can not custom modify designs. Only the width and height can be modified.

Here are examples of W/H Ratios:
(Ratios shown inside shape)

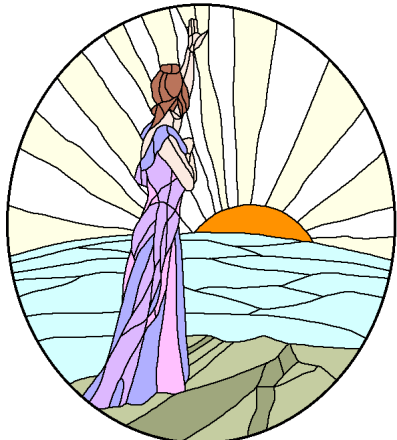

Below is an example to help you understand the Acceptable W/H Ratio Range:

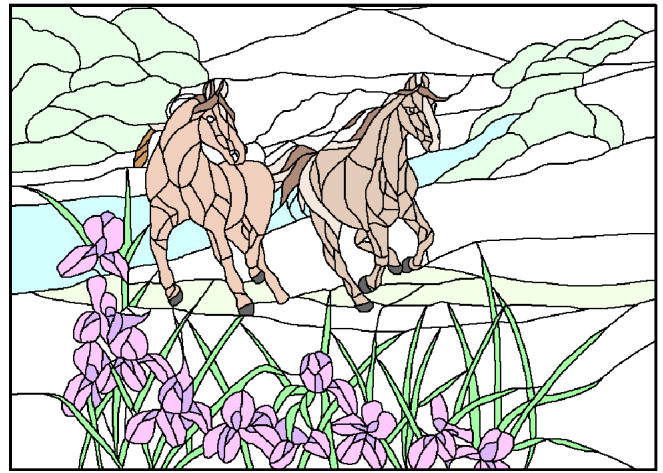

#02-07 IRISES

* Frames with hanging chandelier (xxxx-5) center have no center glass panel.
 ** Soffit (above dome for lighting) must be sealed tightly to prevent glass panels from lifting out!
 *** These frames are non-standard and not always in stock. Allow time for custom manufacture.
 **** Frames larger than 10' are not fully self-supporting frames. (Requires cable supports for each arm.)

Clockwise from Upper Left:
 1) SupraDome 7 (77.5" / 12-sides) with Customized Textured Clears & Brass Comes & Chandelier center top plate;
 2) SupraDome 7 (77.5" / 12-sides) with Cascade design;
 3) The Dome (45.5" / 8-sides) with Bordered Clears & Brass Comes & Chandelier center top plate, white frame;
 4) The Dome Elongated (4' x 5') with Nouveau design;
 5) & 6) SupraDome 10 (123" / 24-sides) with custom design.
